38W LED SHOP LIGHT  
by Green Illumination

SL38-CW

/// DISCOVER THE GREEN ILLUMINATION RECTANGULAR LED SHOP LIGHT DESIGNED AND ENGINEERED FOR RETAIL AND COMMERCIAL SPACES. FEATURING HIGH BRIGHTNESS WITH IMPRESSIVE COLOUR RENDERING PROPERTIES, IN HIGH GLOSS WHITE WITH A TRANSPARENT LENS FOR MAXIMUM ILLUMINATION

### /// EASY INSTALLATION

The SL38 has been specifically designed with a wider face, allowing for the easiest of retro-fitting into existing installations. Larger tensioning clips allow secure mounting in any ceiling application.

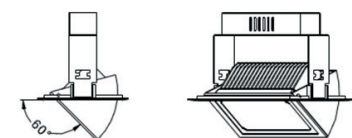

### /// HIGH COLOUR CRI

See objects in true to life colour with the SL38 LED shop light. Light sources with a CRI of 80 and higher are considered to have excellent colour rendering. Green Illumination SL38 LED shop light has an amazing ability to render object colours with a CRI of 83.

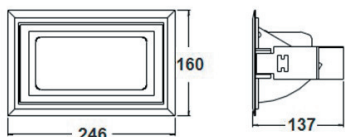

### /// EXPANDED LIFESPAN

The SL38 is engineered to last with a 36,000 hour lifespan, significantly longer than a metal halide which will only last approximately 10,000 hours. Over this lifespan, maintenance costs are considerably less than an equivalent metal halide fitting.

### /// COOLER RUNNING TEMPERATURE

The SL38 LED produces approximately one third of the heat that the standard 70W metal halide produces, a critical factor when considering the potential savings on air conditioning.

### /// ADJUSTABLE HEAD

Emphasise specific areas with the SL38's adjustable head which allows the lamp to be angled up to 60 degrees.

### /// PRODUCT SPECIFICATIONS

PRODUCT CODE	WATTAGE	INPUT VOLTAGE	LUMEN OUTPUT	CRI	BEAM ANGLE	COLOUR TEMP.
SL38	38 W	240 V	3382 LM	83	120°	4000 K

FINISH COLOUR OPTION	IP RATING	LENS TYPE	DIMENSIONS	CUTOUT SIZE	LIFESPAN	WARRANTY
